

HVAC Technician In-Person Seminars

PRESENTED BY US AIR CONDITIONING DISTRIBUTORS

HH8 and 454-B Condensers, Control Wiring, Start up, Service, And RDS Systems

This class will cover the functions of the new 454-B condensers including the HH8 and how to service them. Additionally, the tools that are needed, the proper way to wire these new systems with the refrigerant detection systems, how to properly charge an Inverter compressor, RDS set up and service. This class is for new and existing service technicians and installers wanting to move into service. The San Diego class will have hands on training. Class hours are 5:30-9:00 pm and Matthew Getz is the instructor. NATE approved 3 CEH's, course #8555-0011. CEH's apply to CRIN, ACIN, HPIN, CRSV, ACSV, HPSV, EASR.

Understanding Wiring Schematics: How to Use In Installation, Diagnostics & Service

The class will start by covering the basics of wiring diagrams, how to identify the three different types, understanding what they mean, how to read and use them. Additionally applying them in the servicing and diagnosing of HVAC systems to save time and how to make your own schematics if there isn't one on your unit. This class is good for beginners and seasoned installers, managers, and owners. Matthew Getz is the instructor and class hours are 5:30-8:30 pm. NATE approved 3 CEH's, course #8555-0019. CEH's apply to CRIN, ACIN, GSIN, CRSV, ACSV, HPSV, GSSV.
